

PUBLIC NOTICE

PUBLIC MEETING FOR U.S. HIGHWAY 50 CAMINO SAFETY PROJECT

WHAT IS BEING PROPOSED

The California Department of Transportation (Caltrans) proposes to construct safety improvements on U. S. Highway 50 in the Camino area, east of the City of Placerville, from Still Meadows Road to Upper Carson Road. The project proposes to install a concrete median barrier that will restrict left-turn movements at at-grade intersections, widen outside shoulders to standard width, and install several acceleration/deceleration lanes that will help reduce collisions. In addition, a new undercrossing will be constructed to allow access between the north and south sides of Highway 50.

WHY SHOULD YOU ATTEND?

To learn about the latest project alternatives developed since the last public meeting, ask questions, and provide input to the project team.
